

Draft Parks Landscape Plan

What is a Parks Landscape Plan?

Creating a Park Landscape Plan helps set the direction on how we can enhance the accessibility, safety and function of Bothamley Park, Cannons Creek Park and Cannons Creek Lakes Reserve. The Park Landscape Plan will outline how we can make the most out of each space to best meet the needs of the community now and into the future.

The plan will also feed into the wider Porirua Development work programme to improve housing and public spaces in eastern Porirua.

Why do we need a Parks Landscape Plan?

Eastern Porirua has a great diversity of open spaces and recreation facilities, ranging from sports grounds, recreational reserves, scenic reserves, playgrounds and local neighbourhood parks. However, we know that Bothamley Park, Cannons Creek Park and Cannons Creek Lakes Reserve need some improvements to ensure they are safe and fit for purpose.

In 2019, the community told us that:

- The three parks are underutilised
- There is low visibility and poor water management
- There is a lack of accessibility and safety
- There is significant water pollution within Bothamley Park due to the old wastewater pipes
- Cannons Creek Park has poor drainage at the bottom of the park
- Cannons Creek Lakes Reserve has issues around public safety, vandalism and anti-social behaviour.

We're looking at ways to enhance Bothamely Park, Cannons Creek Park and Cannons Creek Lakes Reserve.

Let us know what you think

“We will come back to the community in November 2021 with a draft Parks Landscape Plan.”

Creating a Parks Landscape Plan will provide the community with an opportunity for how we can enhance Bothamley Park, Cannons Creek Park and Cannons Creek Lakes Reserve to meet the needs of the community now and into the future.

Will you come back to the community for feedback?

Absolutely! We will take all of the community’s feedback gathered in August and September and come back to the community in November 2021 with a draft Parks Landscape Plan for community review.

Where is the Draft Spatial plan?

The draft Spatial Plan is being further developed with input from the Porirua Development’s partners and community board. We acknowledge there has been a delay returning it to the community for comment, but we are working towards this being available in November.

Will we get more community facilities?

The Parks Landscape Plan sets the direction on how we can improve the parks, for example, if there is community support for more facilities, these will be incorporated into the final plan.

Who will deliver the draft Parks Landscape Plan?

The plan will be delivered in partnership between the community, Porirua Development, Porirua City Council and Ngāti Toa Rangitira. The work will be staged and there will be further consultation required before we start making significant changes to the park as outlined in the Parks Landscape Plan.
